Silversolar the Impaler - He is an ancient dragon. He has silver scales and multiple horns jutting from his head. His breath is a damaging stream of pure magic. He is a warrior at heart. His hunting skills are impressive. He lives in a deadly city. His hoard is big and consists almost entirely of magical artifacts.

Types of Dragons:

Nigerian Coldbladed Windgout:

This dragon's plate-like, metallic scales are the color of polished amber, getting finer and less thick on its limbs. It has an elegant body with a slender tail. On the end of its tail is a stinger. This dragon has elongated, muscular limbs with three splayed digits on each foot that end in very short, sharp claws. It has small wings running from its shoulders to the middle of its tail. This dragon's head is wedge-shaped and it has a tiny mouth with a pronounced underbite and irregularly shaped teeth. It has large slitted nostrils located on either side of its snout. This dragon has almond-shaped eyes that are blue. Projecting above its nose is a single horn.

Indian Rocktorrent

This dragon has a serpentine, long body. Its blue scales are more plates of armor, like those of an insect. On the end of its tail is a bladelike extension. This dragon has short limbs with three splayed digits on each foot that end in sharp claws. It has wings like those of a butterfly. This dragon's head is elongated and it has a small mouth with a pronounced underbite and two tusklike teeth in front. It has three beady eyes that are white. A mane of spines sprouts from the back of its head. Projecting above its nose is a single horn. Two horns extend from its forehead.

Frostbone Trampler

This dragon's metallic scales are blue, getting finer and less thick on its underbelly. It has a thick body. On the end of its tail is a bladelike extension. This dragon has short, muscular limbs with five digits on each foot that end in sharp claws. It has wings running from its shoulders to the middle of its tail. This dragon's head is narrow and it has a mouth that takes up most of its face and has a pronounced underbite. It has giant nostrils located close together. This dragon has

three almond-shaped eyes that are yellow. A bony ridge separates its nostrils.
